

# A Measured Response

**Cawood Scientific Limited** is the UK's largest independent provider of analytical laboratory testing services for the 'land-based' industries.

It operates through three divisions, Sciantec Analytical Services (in Yorkshire), NRM Laboratories (in Berkshire and Norfolk) and Sci-Tech Laboratories (in Shropshire). Together these provide a 'complete analytical solution' for the wide range of testing services that are required for businesses engaged in the land based industries.

# Our Dedicated Divisions

The three divisions of Cawood Scientific Ltd function as separate entities within their own sectors and operate with well-established reputations for the provision of high quality accredited testing services to the UK and beyond. Their level of expertise and experience is second to none and all have a clear focus on service, consistency and confidentiality.

Analytical specialists in animal nutrition and health, feed and forage as well as combinable crops.

Expert analytical services for agriculture, horticulture, amenity and environmental services within the land-based industries.

Veterinary diagnostic service encompassing all aspects of bacteriology, serology and molecular diagnostic (real-time PCR) biology analytical testing.

## Services at a glance
